

FIBER CEMENT RAINSCREEN

706 Giddings Ave.

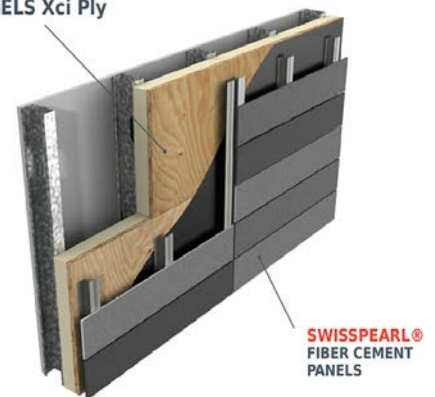

Office conversion in Annapolis, MD boasts a Hunter Xci Ply Swisspearl® Solution.

[GrID Architects](#) was tasked with converting a Class C medical office building to a Class A office, with the hopes of bridging the residential and commercial scales of the building's West Annapolis, Maryland, neighborhood.

By pairing our [SWISSPEARL®](#) fiber-cement panels with [Hunter Xci Ply](#) insulation panels, the design team could easily alter the depths of the rainscreen cavity and provide a turnkey solution for sheathing, insulation and exterior façade panels.
