

CONCRETE RAINSCREEN

2131 K Street

Washington, DC

One of the first UHPC projects in the USA, Group Goetz Architects had the responsibility to upgrade and reclad the entrance of 2131 K Street in Washington, DC's "Golden Triangle" area. Dark-grey fiber concrete panels were installed with Plus5 substructure. The adjustable system allowed the architect to install the panels with minimal cavity depth.

System Type: Hci.10

Panel Type: UHPC / Fiber Concrete

Architect: Group Goetz Architects

Installer: Galaxy Glass & Aluminum

Completed: 2007
