

# Mohawk Valley Community College, Rome, NY

*Energy-efficient rainscreen renovation for the Plumley Building*

[JMZ Architects](#) selected [Terra5®](#) terracotta and [Swisspearl®](#) fiber cement rainscreen panels for the Rome Campus Expansion.

The expansion and renovation of the Plumley Building has revitalized Mohawk Valley Community College's Rome Campus. The project involved extensive renovation of the existing 65,000 square foot building to accommodate faculty offices, instructional space, and academic support functions. Major additions were constructed to house the College's growing Culinary program and a new Learning Commons.

System Types: Terra5 Oyster w/ Vci.45 and Swisspearl CARAT Topaz 7070 w/ Vci.40

Panel Types: [Terra5®](#) and [Swisspearl®](#)

Architect: JMZ Architects
