

CONCRETE RAINSCREEN

# 175 Varick Street

New York, NY

Spectra Group Architects of NYC used the Plus5 attachment system for their Fiber-Concrete renovation of 175 Varrick Street in SOHO. Taking advantage of the adjustability and varying depth options, the architect and installer were able to design and install a new facade for the building's street level. Plus5 utilizes aluminum bracket technology.

System Type: F1.40  
Panel Type: Concrete5  
Architect: Spectra Group Architecture  
Completed: 2012
