

FIBER CEMENT RAINSCREEN

Capital Square Hyatt Place

Washington, DC

Washington DC has a new building added to the NOMA skyline with Cooper Carry's new design for Capital Square Hyatt Place. The iconic building features a variety of red and grey panels with 15,000 square feet of Cem5 fiber cement. The façade incorporated small fabricated panels to make this building distinctive.

System Type: F2.10
Panel Type: Cem5
Architect: Cooper Carry
Installer: Robert Aird Inc
Completed: 2013
