

Lea County Courthouse - Lovington,

NM *Swisspearl's Patina Panels For Timeless Design at County Courthouse*

The Lea County Courthouse, designed by [RMKM Architects](#) exemplifies modern judicial design. Spanning 93,000 square feet in downtown Lovington, the five-story complex, including a basement, meets the county's functional and aesthetic needs.

Featuring Swisspearl's Patina Original panels on the facade, known for their natural aging process, the courthouse exudes warmth and timelessness. Swisspearl's innovative materials, coupled with RMKM's attention to detail, ensured the project's compliance with specifications and performance, delivering durability and visual appeal.

Panel Type: Swisspearl® PATINA Original

Architect: RMKM Architects
