

SWISSPEARL® FIBER CEMENT RAINSCREEN

The Alice – Princeton, NJ

Swisspearl Panels to Clad Sustainable Luxury Apartment Community

The Alice is an upcoming \$63 million luxury apartment community, expected to be completed in summer 2024 in Princeton, NJ. This environmentally sustainable development features 125 units with Zero Energy Ready Homes certification and a building envelope designed to Passive House standards. Cladding Corp will be supplying approximately 38,500 square feet of Swisspearl panels for the exterior rainscreen façade, adding sophistication and durability to the modern living space. Special thanks to OK Construction for delivering the highest quality systems, and for fabricating on site.
